

## AZODEZO

### **Azoxystrobin 18.2 % + Difenoconazole 11.4 % SC**

AZODEZO is a new generation combination fungicide which controls many important plant diseases. AZODEZO is recommended to apply early to avoid irreversible crop damage and build-up of the disease AZODEZO helps to improve the yield and/or quality of the produce.

## Mode of Action

AZODEZO inhibits spore germination at the early stages of fungal development, this confers excellent protection against invasion by fungal pathogens. AZODEZO stops development of the fungi by interfering with the biosynthesis of sterols in cell membranes.

## Features & Benefits

- AZODEZO has both preventative and curative action.
- AZODEZO has both systemic and contact mode of action.

- AZODEZO has broad spectrum control of diseases on leaves and fruits.
- AZODEZO has residual action which results into long duration control of diseases.
- AZODEZO also confers anti-sporulant due to which further multiplication & spread is arrested.
- AZODEZO has resistance management activity due to combination of two compounds with different modes of action.

## Crop Recommendation

CROPS	TARGET PEST/ DISEASE	DOSAGE
 Paddy	Blast, Sheath blight	200 ml/acre
 Chilli	Anthraco nose, Powdery Mildew	200 ml/acre
 Tomato	Early blight & Late blight	200 ml/acre
 Maize	Blight, Downy Mildew	200 ml/acre
 Wheat	Rust, Powdery mildew	200 ml/acre
 Cotton	Leaf spot, Grey mildew	200 ml/acre
 Turmeric	Leaf blotch, Leaf spot, Rhizome rot	200 ml/acre
 Onion	Purple blotch, Stemphylium blight, Downy mildew	200 ml/acre

CROPS	TARGET PEST/ DISEASE	DOSAGE
 Sugarcane	Red rot, Smut, Rust	200 ml/acre

## Pack Sizes

1 Ltr	500 ml	200 ml
